Dear Cynthia:

Thank you for writing about the Djole Dance Company and your upcoming trip to Africa. The Company sounds like a wonderful program, and I commend you for your efforts to provide safe, constructive activities for young people.

In addition to teaching the children more about their culture, I was particularly pleased to learn that you will be working to raise awareness about HIV/AIDS. Combating this pandemic is one of the critical challenges of our era, and I encourage you to continue your worthy efforts.

All the best to you.

Sincerely,

Bill Clinton
